Which startup stage is best suited for working with TFG?

TFG SWEET SPOT

Focus: We are focused in three areas

Specialized in emerging technologies

SW & SaaS

Our advisors bring deep software experience to help founders leverage their solution, leading to less friction, a better customer experience, and greater potential to dominate a market.

BIOTECH

The TFG BioTech team is built with passionate serial-entrepreneurs and academics who are specialized in advising life science companies.

CLIMATE TECH

TFG accelerates a broad spectrum of next-generation technologies that will transform all sectors of the economy. We are focused on supporting exceptional founders that tackle the climate transition head-on.
